

## ABOUT F/LIST

F/LIST is a globally active manufacturer of high end interior for business and private jets with more than 700 employees worldwide. The Austrian-based family business with subsidiaries in Canada, Brazil, the United States and Germany has delivered more than 1,200 business aircraft interiors for original equipment manufacturers such as Bombardier, Embraer and Pilatus.

EASA Part 21G, 21J and 145 certifications allow F/LIST to cover the entire VIP cabin interior value chain starting from engineering over production to the final installation of interior components such as plug-and-play monuments, linings and floors.

Together with Lufthansa Technik, F/LIST runs the 50:50 joint venture INAIRVATION. This entity combines Lufthansa Technik's expertise in premium aircraft cabin conversions and in-flight entertainment systems with F/LIST's manufacturing process in top quality business jet interiors. Aircraft manufacturers benefit from one turn-key supplier delivering the entire integrated aircraft cabin.

HIGH END  
AIRCRAFT INTERIORS

F/LIST

EXCELLENT QUALITY,  
RELIABILITY AND  
INNOVATIONS HAVE  
MADE US ONE OF  
THE WORLD'S MOST  
SOUGHT-AFTER  
PARTNERS IN  
THE PRODUCTION OF  
CUSTOM INTERIORS  
FOR BUSINESS AND  
PRIVATE JETS.

Our business partners include aircraft manufacturers, owner representatives, industrial designers, MROs and completion centers around the world. F/LIST offers services including engineering and production, certification support, testing and more.

## OUR AIRCRAFT DIVISIONS

### OEM INTERIORS

We develop and produce business and private jet cabin interiors. We have successfully delivered cabinets for more than 1,200 projects. Our high level of quality and precision earned us the loyalty of many aircraft manufacturing partners, as well as the steadfast cooperation of numerous MROs and completion centers.

### VIP INTERIORS

We manufacture custom interiors to the most exacting standards for VIP cabins of narrow- & widebody aircraft. In doing so, we benefit from decades of experience in the yachting sector. Today we work in close cooperation with the major completion centers in Europe and North America who place their reliance on our flexibility, punctuality and high quality, to manufacture custom interiors for private jets.

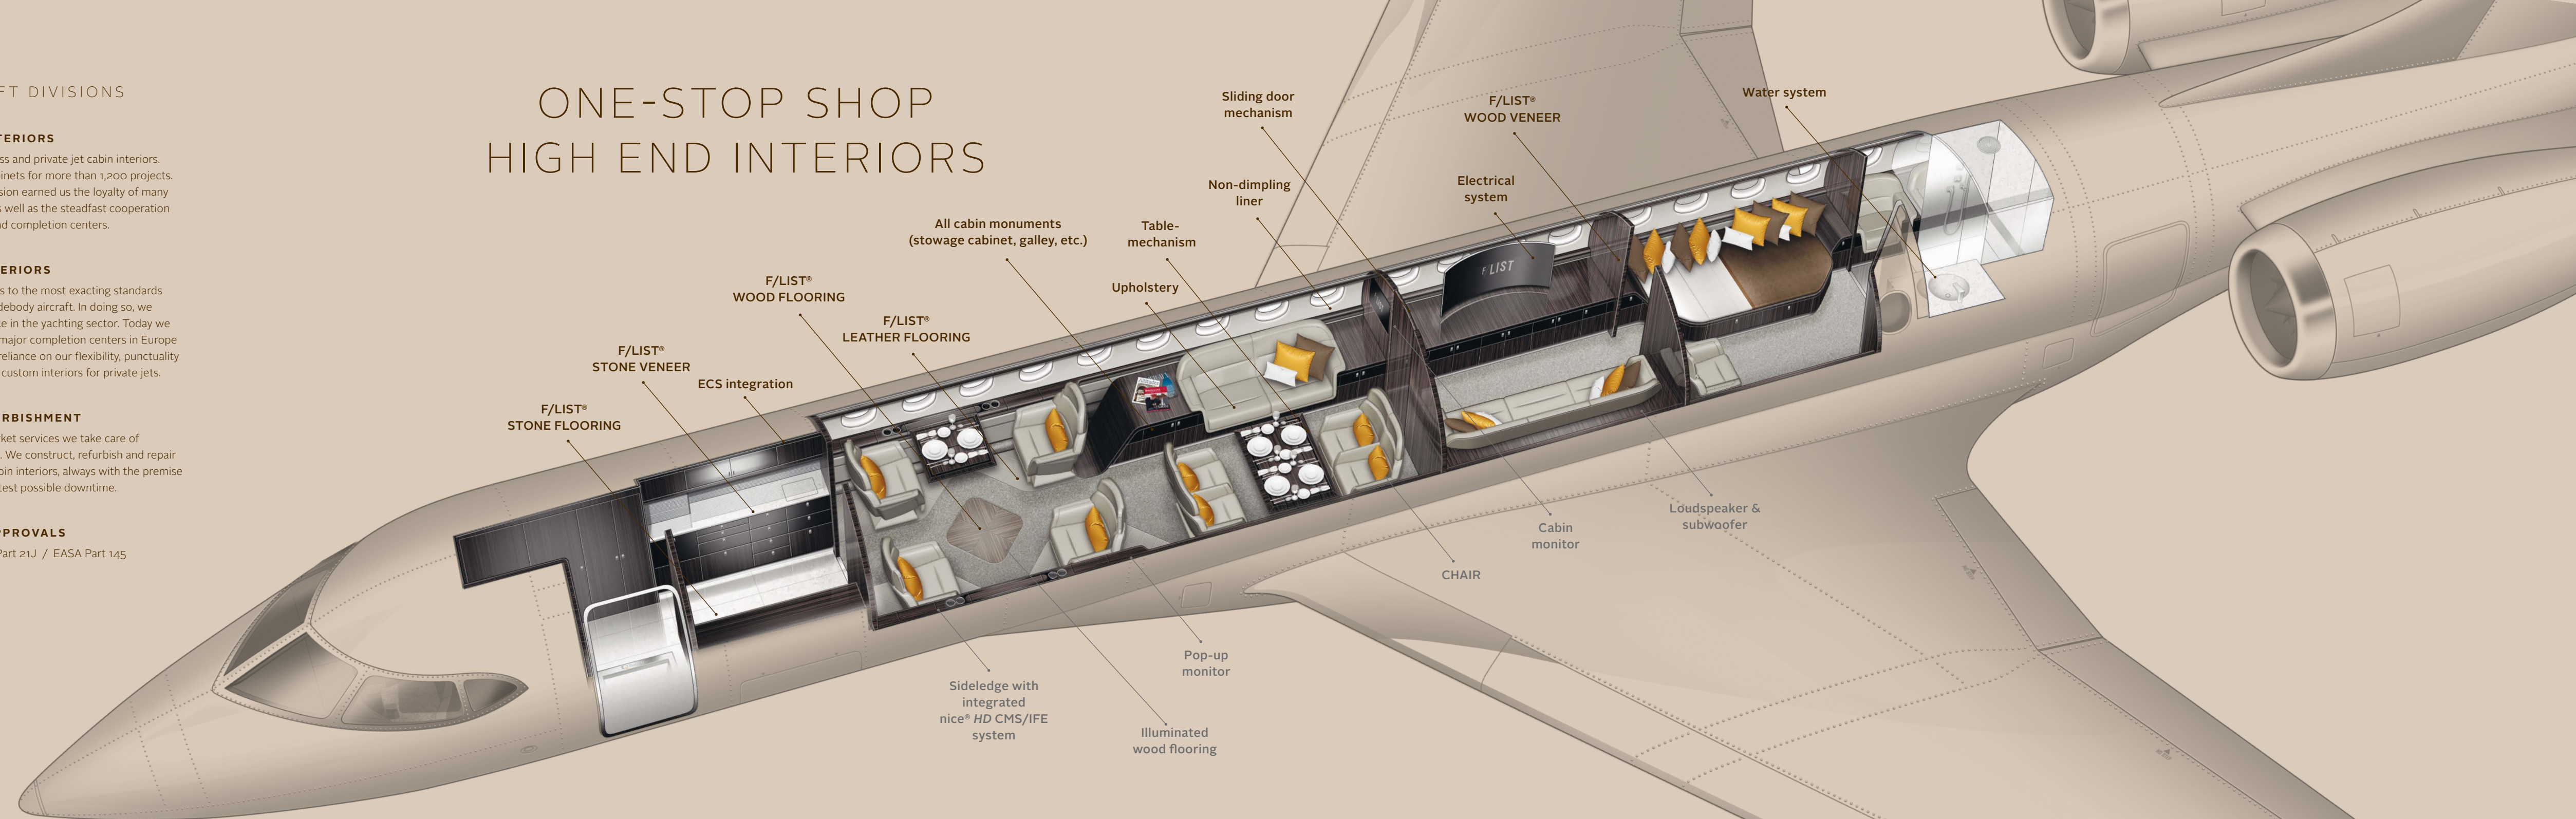

### CABIN REFURBISHMENT

With our extensive aftermarket services we take care of all our customers' needs worldwide. We construct, refurbish and repair individual elements and complete cabin interiors, always with the premise of maintaining the shortest possible downtime.

### F/LIST APPROVALS

EASA Part 21G / EASA Part 21J / EASA Part 145

# ONE-STOP SHOP HIGH END INTERIORS
