

# F/LIST® STONE VENEER

F/LIST® Stone Veneer with real stone offers a beautiful and durable surface combined with enormous weight savings and formability. The Stone Veneer can be cut to a customized thickness (minimum 0.8 mm [0.03"]). The surface can either be polished, brushed or varnished, according to the customer's preference. Additionally, extremely precise custom engravings are possible, thanks to an innovative laser technology.

The F/LIST® Stone Veneer meets all applicable certification requirements, such as flammability. Additionally, a very stringent qualification program ensures that F/LIST® Stone Veneer exceeds the most demanding customer expectations.

STONE VENEER	
MINIMUM THICKNESS	0.8 mm [0.03"]
MINIMUM WEIGHT *)	3.2 kg/m <sup>2</sup> [0.66 lb/ft <sup>2</sup> ]
MAXIMUM PANEL SIZE	2.50 m x 1.20 m [8.2 ft x 3.9 ft]

\*) Weight stated is a typical value; actual weight depends on engineering details and surface finish.

## PRODUCT CHARACTERISTICS

- Enormous weight advantages compared to other natural stone constructions
- Significant durability in service
  - No cutting board necessary
  - No hot pad or trivet under hot pots or heat producing appliances necessary
- Ability to wrap around custom shapes, edges and contoured surfaces
- Minimal seams (no tiled stone veneer concept)
- Simple cleaning process
- Elimination of fire retardant treatment
- Custom engravings possible
- Virtually no maintenance costs incur if the product is handled properly

## APPLICATION AREAS WITHIN AIRCRAFT CABIN

- Countertops in galley and lavatory areas
- Wet areas (lavatory, shower)
- Table-/credenza tops
- Partition walls
- Armrest plates
- Handrails
- Inlays
- and many more

## MARQUETRIES AND ENGRAVINGS

Upon request, ornate marquetry or custom engravings can be added.
