

# F/LIST® WOOD VENEER

F/LIST processes veneers from high-quality fine woods that captivate through their color fastness and flexibility. The range of products includes up to 180 different types of natural or reconstituted wood veneers according to REACH regulation (EG 1907/2006), which can be processed either as single - or multi-ply wood veneer, depending on requirements. Due to the close relationship F/LIST maintains to worldwide veneer and hardwood suppliers, an exclusive live-log program can be offered upon request.
